

All of us here at Roebing Road Raceway hope you and your family are all well and had a Happy Holiday season! We wanted to update everyone on a few happenings at RRR for this year:

REPAVING OF RRR

We are tentatively still planning to repave the track in May of 2022. We are excited about it and are just waiting on updated pricing due to the economy. We are planning to be down for the entire month of May to complete the work required with the repaving.

FUEL AT RRR

We are having to make some changes with our fuel situation. The Fire Marshall just came last Thursday for our annual Racetrack License inspection. We have new Fire Marshalls/Rules for the State of Georgia, and these new rules don't allow for grandfathering in of old, existing fuel pumps.

At this point, we are in touch with a new fuel provider to see if we can work something out to have them put a new system in but that is going to take some time.

In the meantime, we are selling fuel in 5-gallon pails. We have lost one of the fuels: 93 unleaded is NO LONGER available at the track and limited quantities of the 98 and 110 fuel.

We have 98 unleaded in 5-gallon pails for \$ 70.82 and 110 LEADED in 5-gallon pails for \$67.70.

We apologize for the inconvenience that this will cause but it is the only work around that we have now. Please be patient with us during this transition.
